PERSON SPECIFICATION 2019

<p>Values: Understands, respects and demonstrates the values of the NHS Constitution (e.g. everyone counts; improving lives; commitment to quality of care; respect and dignity; working together for patients; compassion)</p>		
--	--	--

ⁱ 'When is this evaluated' is indicative but may be carried out at any time throughout the selection process.

ⁱⁱ The GMC introduced the licence to practise in 2009. Any doctor wishing to practise in the UK after this date must be both registered with and hold a licence to practise from the GMC at time of appointment.

ⁱⁱⁱ Intended start date refers to the date at which the post commences, not (necessarily) the time an offer is accepted.

^{iv} Exceptional circumstances may be defined as a demonstrated change in circumstances, which can be shown on the ability to train at that time and may include severe personal illness or family caring responsibility incompatible with continuing to train. Applicants will only be considered if they provide a 'support for reapplication to a specialty training programme' form signed by both the Training Programme Director / Head of School and the Postgraduate Dean in the LETB / Deanery that the training took place. No other evidence will be accepted.

^v The Support for Application to another region form, signed by the Training Programme Director of their current Specialty Training Programme confirming satisfactory progress must be submitted to the recruitment office at time of application.

^{vi} Any time periods specified in this person specification refer to whole time equivalent.
