

INTENSIVE CARE MEDICINE – ST3

ENTRY CRITERIA	
Essential Criteria	When is this evaluated? ⁱ
<p>Qualifications:</p> <p>Applicants must have:</p> <ul style="list-style-type: none"> • MBBS or equivalent medical qualification <p>Applicants from an Anaesthetics training background, via Core Anaesthetics or ACCS Anaesthetics or equivalent:</p> <ul style="list-style-type: none"> • Primary FRCA MCQ or EEA Eligibilityⁱⁱ by date of application • Primary FRCA or EEA Eligibility by date of interview <p>Applicants from a medicine training background, via Core Medical Training or ACCS Acute Medicine or equivalent:</p> <ul style="list-style-type: none"> • MRCP (UK) Part 1 or EEA eligibilityⁱⁱⁱ at time of application • MRCP (UK) full diploma or EEA eligibility by time of appointment^{iv} <p>Applicants from an Emergency Medicine training background, via ACCS Emergency Medicine, Direct Route of Entry – Emergency Medicine or equivalent:</p> <ul style="list-style-type: none"> • MRCEM or FRCEM Intermediate by time of appointment 	<p>Application form</p> <p>Interview/selection centre^v/pre-employment check</p>
<p>Eligibility:</p> <p>Applicants must:</p> <ul style="list-style-type: none"> • Be eligible for full registration with, and hold a current licence to practise^{vi} from, the GMC at the advertised post start date^{vii} • Have evidence of either: <ul style="list-style-type: none"> ➢ Current employment in a UK Core Training Programme; or ➢ 24 months' experience after full GMC registration, and evidence of achievement of core competences from a UK core training programme or equivalent, in line with GMC standards / Good Medical Practice; including: <ul style="list-style-type: none"> ➤ make the care of your patient your first concern ➤ provide a good standard of practice and care ➤ take prompt action if you think that patient safety, dignity or comfort is being compromised ➤ protect and promote the health of patients and of the public ➤ treat patients as individuals and respect their dignity ➤ work in partnership with patients ➤ work with colleagues in the ways that best serve patients' interests ➤ be honest and open and act with integrity ➤ never discriminate unfairly against patients or colleagues ➤ never abuse your patients' trust in you or the public's trust in the profession. <p>Applicants from an Anaesthetics training background, via Core Anaesthetics or ACCS Anaesthetics or equivalent:</p> <p>Have evidence of achievement of CT2 competences in Anaesthetics and Intensive Care Medicine (including Initial Assessment of Competency) or equivalent demonstrated by;</p>	<p>Application form, interview/selection centre</p>

<ul style="list-style-type: none"> • Basic Level Training Certificate (BLTC)/ Core Level Training Certificate (CLTC). To be used if you have completed a UK Anaesthetics/ ACCS Anaesthetics Core Training Programme; or • Written statement from College Tutor that BLTC/ CLTC will be issued by the time of appointment, including evidence of satisfactory Annual Review of Competence Progression for CT1; or • Basic Level Equivalence form (BLE)/ Core Level Equivalence form (CLE). To be used if you have not completed a UK core training programme but have all the required competencies. <p>Applicants from a medicine training background, in the three years preceding the advertised post start date for the round of application, via Core Medical Training or ACCS Acute Medicine or equivalent:</p> <ul style="list-style-type: none"> • Have evidence of achievement of core medical competences, for the round of application, via one of the following methods: <ul style="list-style-type: none"> ➢ Current employment in a UK core medical training or ACCS (Acute Medicine) programme, or JRCPTB internationally level 3 accredited equivalent core medical training^{viii}, and on track to successfully complete the training programme by the advertised post start date, or ➢ Successful completion, of a UK core medical training or ACCS (Acute Medicine) programme^{ix}, or JRCPTB internationally level 3 accredited equivalent core medical training, evidenced by ARCP, or ➢ Evidence of achievement of core medicine competences at time of application. Acceptable evidence is only permitted via the standard Alternative Certificate of Core Competence^x <p>Applicants from an Emergency Medicine training background, via ACCS Emergency Medicine, DRE-EM or equivalent:</p> <ul style="list-style-type: none"> • Evidence of achievement of ACCS ST/CT1, ST/CT2 and ST/CT3 Emergency Medicine^{xi} competences at core trainee level by time of appointment supported by evidence from workplace-based assessments of clinical performance (DOPs, Mini-CEX, CBD, ACAT, ESLE) and Multi Source Feedback or equivalent, ARCP or equivalent; or • Evidence of 36 months training at ST/CT1, ST/CT2 and ST/CT3 level in all of the specialties that make up the ACCS and CT3 Emergency Medicine training programme by time of appointment but must include a minimum of 6 months in Emergency Medicine and a minimum of 3 months in all specialties other than Emergency Medicine. Supported by evidence from workplace-based assessments of clinical performance (DOPS, Mini-CEX, CBD, ACAT, ELSE) and Multi Source Feedback or equivalent, and ARCP <p>Applicants from an Emergency Medicine training background, via DRE-EM:</p> <ul style="list-style-type: none"> • Evidence of successful completion of competences at ST/CT3 level in all of the specialties that make up the ACCS and CT3 Emergency Medicine training programme. Must include a minimum of 9 months in Emergency Medicine and a minimum of 3 months in all specialties other than Emergency Medicine. <p>All Applicants:</p> <ul style="list-style-type: none"> • Must be eligibility to work in the UK • Applicants who already possess a National Training Number in one of the agreed partner specialties (Acute Internal Medicine, Anaesthetics, Emergency Medicine, Renal Medicine and Respiratory Medicine) must not be beyond the end of ST5 in this initial specialty of appointment at the time of interview if they are intending to undertake a Dual CCTs Programme. • Hold a current and in date Advanced Life Support Certificate from the Resuscitation Council UK or equivalent by intended start date. 	
<p><i>Fitness to practise:</i></p> <p>Is up to date and fit to practise safely and is aware of own training needs.</p>	<p>Application form</p> <p>References</p>
<p><i>Language skills:</i></p> <p>Applicants must have demonstrable skills in written and spoken English, adequate to enable effective communication about medical topics with patients and colleagues, as assessed by the General Medical Council^{xii}</p>	<p>Application form, interview/selection centre</p>

<p>Health: Applicants must meet professional health requirements (in line with GMC standards / Good Medical Practice).</p>	Application form, pre-employment health screening
<p>Career progression: Applicants must:</p> <ul style="list-style-type: none"> • Be able to provide complete details of their employment history • Have evidence that their career progression is consistent with their personal circumstances • Have evidence that their present level of achievement and performance is commensurate with the totality of their period of training <p>If applying from an Anaesthetics training background via Core Anaesthetics or ACCS Anaesthetics training, or equivalent:</p> <ul style="list-style-type: none"> • Have at least 24 months' experience^{xiii} in Anaesthetics and/or Intensive Care Medicin^{xiv} (not including Foundation modules) by time of intended start date (of which at least 18 months is in Anaesthetics). <p>If applying from a medicine training background via Core Medical Training or ACCS Acute Medicine, or equivalent:</p> <ul style="list-style-type: none"> • Have sufficient experience working in medical specialties (not including foundation level experience) by the advertised post start date. This can be via either: <ul style="list-style-type: none"> ➢ Training completed in either core medical training, ACCS (acute medicine) or broad-based training with the further year in CT2 core medical training, or ➢ Have at least 24 months' experience^{xv} in medical specialties (of which at least 12 months must include the care of acute medical in-patients). Experience in certain acute care common stem specialties can be counted towards the 24 months in some circumstances^{xvi} <p>If applying from an Emergency Medicine training background via ACCS Emergency Medicine or equivalent:</p> <ul style="list-style-type: none"> • Have at least 36 months' experience in ACCS and CT3 specialties^{xvii} (not including Foundation modules) or equivalent by time of appointment <p>All applicants:</p> <ul style="list-style-type: none"> • Must not have previously relinquished or been released / removed from a training programme in this specialty or associated core training programme, except if they have received an ARCP outcome 1 (outcome 6 for associated core training) or under exceptional circumstances^{xviii} • Must not already hold, nor be eligible to hold, a CCT/CESR in the specialty they are applying for and/or must not currently be eligible for the specialist register for the specialty to which they are applying • Must have notified the Training Programme Directory of the specialty training programme they are currently training in if applying to continue training in the same specialty in another region^{xix} • Must not already hold or be eligible to hold a CCT in Intensive Care Medicine and is not currently on the Specialist Register, or equivalent, in any other EU member state • For those wishing to be considered for Locum Appointment for Training posts (where available): no more than 24 months experience in LAT posts in the specialty by intended start date 	Application form Interview/selection centre
<p>Application completion: ALL sections of application form completed FULLY according to written guidelines.</p>	Application form

SELECTION CRITERIA		
Essential Criteria	Desirable Criteria	When is this evaluated?
Qualifications		
<ul style="list-style-type: none"> As Above 	<ul style="list-style-type: none"> For physician entrants, MRCP (UK) at the time of application Intercalated degree, BSc, BA, BMedSci or equivalent Higher degrees including MSc, PhD or MD (where research thesis not part of first medical degree) Postgraduate qualifications achieved in other specialties 	Application form, interview/selection centre References
Career Progression		
<ul style="list-style-type: none"> As Above 	<ul style="list-style-type: none"> Up to 2 years' additional training/experience in related specialties at CT1/CT2 level 	Application form, interview/selection centre References
Language Skills		
<ul style="list-style-type: none"> Demonstrates adequate written and oral communication skills to manage the full range of patient interactions 		Interview
Clinical Skills		
<ul style="list-style-type: none"> As Above 	<ul style="list-style-type: none"> Experience at CT/ST1 of CT/ST2 level of managing patients with severe acute medical disease by the time of commencement of ST3 training Evidence of experience in a range of acute medical specialties, with experience of managing patients on unselected medical take during core medical training or equivalent 	Application form, interview/selection centre, References
Clinical Skills – Clinical Experience & Knowledge		
<ul style="list-style-type: none"> Demonstrates awareness of the basics of managing acute medical conditions, including emergencies such as GI bleeding, severe asthma, heart failure etc. Appropriate knowledge base and ability to apply sound clinical judgement to problems Awareness of the basics of managing acute medical disease 	<ul style="list-style-type: none"> Evidence of some more advanced skills in acute medicine as defined within the Acute Internal Medicine or General Internal Medicine curricula Evidence of some competences in the specialty as defined by the relevant curricula Evidence of skills in the management of acute medical emergencies (e.g. ALERT, IMPACT, certification) 	

PERSON SPECIFICATION 2019

<ul style="list-style-type: none"> • Able to demonstrate proficiency in a range of medical procedures as an indication of manual dexterity and hand-eye coordination • Evidence of competence in management of medical emergencies and in-patients through continuous work-based assessments, portfolio evidence, including logbook documentation, if applicable • Evidence of competence to work without direct supervision where appropriate 	<ul style="list-style-type: none"> • Instructor status or nominated as instructor potential in above courses as appropriate or equivalent • Clinical experience in Intensive Care Medicine • Successful completion of relevant skills course(s) e.g. ALS, PALS, ATLS, BASICS, IMPACT, TEAM etc. or equivalent 	
<p>Clinical Governance</p>		
<ul style="list-style-type: none"> • Is able to demonstrate an understanding of clinical governance and risk management • Understands the importance of audit and QIP (Quality Improvement Projects) to the practice of Intensive Care Medicine 	<ul style="list-style-type: none"> • Evidence of clinical governance activity e.g. presentation at a clinical governance meeting, involvement with incident reporting, dealing with complaints • Evidence of active participation in audit at CT/ST1 and CT/ST2 or equivalent • Completion of audit cycle • Presentation of completed audit project 	
<p>Academic Skills</p>		
<p>Research and audit skills:</p> <ul style="list-style-type: none"> • Demonstrates understanding of research, including awareness of ethical issues • Demonstrates understanding of the basic principles of audit, clinical risk management, evidence-based practice, patient safety, and clinical quality improvement initiatives • Demonstrates knowledge of evidence-informed practice <p>Teaching</p> <ul style="list-style-type: none"> • Evidence of teaching experience and/or training in teaching 	<p>Research and audit skills:</p> <ul style="list-style-type: none"> • Demonstrates an understanding of research methodology • Evidence of relevant academic and research achievements and involvement in a formal research project • Evidence of relevant academic publications • Evidence of involvement in an audit project, a quality improvement project, formal research project or other activity which: <ul style="list-style-type: none"> • focuses on patient safety and clinical improvement • demonstrates an interest in and commitment to the specialty beyond the mandatory curriculum • Evidence of a portfolio of audit projects including where the audit loop has been closed and there is evidence of learning of the principles of change management • Evidence of exceptional achievement in medicine <p>Teaching:</p> <ul style="list-style-type: none"> • Evidence of involvement in teaching students, postgraduates and other professionals, with feedback • Evidence of participation in a teaching course 	<p>Application form Interview/selection centre</p>
<p>Personal Skills</p>		
<p>Communication skills:</p> <ul style="list-style-type: none"> • Demonstrates clarity in written/spoken communication, and capacity to adapt language to the situation, as appropriate • Able to build rapport, listen, persuade and negotiate. <p>Problem solving and decision making:</p>	<p>Management and leadership skills:</p> <ul style="list-style-type: none"> • Evidence of involvement in management commensurate with experience • Demonstrates an understanding of NHS management and resources • Evidence of effective multi-disciplinary team working and leadership, supported by multi- 	<p>Application form Interview/selection centre References</p>

<ul style="list-style-type: none"> Capacity to use logical/lateral thinking to solve problems/make decisions, indicating an analytical/scientific approach. <p>Empathy and sensitivity:</p> <ul style="list-style-type: none"> Capacity to take in others' perspectives and treat others with understanding; sees patients as people Demonstrates respect for all. <p>Managing others and team involvement:</p> <ul style="list-style-type: none"> Able to work in multi-professional teams and supervise junior medical staff or other staff members as part of the MDT Ability to show leadership, make decisions, organise and motivate other team members; for the benefit of patients through, for example, audit and quality improvement projects Capacity to work effectively with others. <p>Organisation and planning:</p> <ul style="list-style-type: none"> Capacity to manage/prioritise time and information effectively Capacity to prioritise own workload and organise ward rounds Evidence of thoroughness (is well-prepared, shows self-discipline/commitment, is punctual and meets deadlines.) <p>Vigilance and situational awareness:</p> <ul style="list-style-type: none"> Capacity to monitor developing situations and anticipate issues. <p>Coping with pressure and managing uncertainty:</p> <ul style="list-style-type: none"> Capacity to operate under pressure Demonstrates initiative and resilience to cope with changing circumstances Is able to deliver good clinical care in the face of uncertainty <p>Values:</p> <ul style="list-style-type: none"> Understands, respects and demonstrates the values of the NHS (e.g. everyone counts; improving lives; commitment to quality of care; respect and dignity; working together for patients; compassion) 	<p>source feedback or other workplace-based assessments</p> <ul style="list-style-type: none"> Evidence of effective leadership in and outside medicine. <p>IT skills:</p> <ul style="list-style-type: none"> Demonstrates information technology skills. <p>Other:</p> <ul style="list-style-type: none"> Evidence of achievement outside medicine Evidence of altruistic behaviour, e.g. voluntary work 	
<p>Probity – Professional Integrity</p>		
<ul style="list-style-type: none"> Demonstrates probity (displays honesty, integrity, aware of ethical dilemmas, respects confidentiality) Capacity to take responsibility for own actions. 		<p>Application form, interview/selection centre</p> <p>References</p>
<p>Commitment to Specialty – Learning & Personal Development</p>		
<ul style="list-style-type: none"> Shows initiative/drive/enthusiasm (self-starter, motivated, shows curiosity, initiative) Demonstrable interest in, and understanding of, the specialty Commitment to personal and professional development 	<ul style="list-style-type: none"> Extracurricular activities / achievements relevant to the specialty / ability to demonstrate an effective work-life balance Evidence of participation at meetings and activities relevant to the specialty Active involvement with the FICM or equivalent 	<p>Application form</p> <p>Interview/selection centre</p> <p>References</p>

PERSON SPECIFICATION 2019

<ul style="list-style-type: none"> • Evidence of attendance at organised teaching and training programme(s) • Evidence of self-reflective practice 	<ul style="list-style-type: none"> • Affiliation to professional societies relevant to ICM 	
--	---	--

ⁱ 'When is this evaluated' is indicative but may be carried out at any time throughout the selection process.

ⁱⁱ Applicants who are EEA nationals and have trained in a non-UK EEA nation may be eligible to apply without the primary FRCA under the EU directive 2005/36/EC. To qualify training must meet the defined criteria to be considered comparable to Core Anaesthetics Training in the UK. For further information please contact the Royal College of Anaesthetists.

ⁱⁱⁱ EEA applicants without MRCP(UK) may be eligible under the EU directive 2005/36/EC. For further information, please refer to the JRCPTB website: <http://www.jrcptb.org.uk/Careers%20and%20Recruitment/Pages/Introduction.aspx>

^{iv} Commencing date will be as advertised

^v 'Selection centre' refers to a process, not a place. It involves a number of selection activities which may be delivered within the unit of application.

^{vi} The GMC introduced the licence to practise in 2009. Any doctor wishing to practise in the UK after this date must be both registered with and hold a licence to practise from the GMC at time of appointment.

^{vii} 'Intended start date' refers to the date at which the post commences, not (necessarily) the time an offer is accepted. For 2019 ST3 posts this will normally be **7 August 2019**, unless a different start date is specifically indicated in advance by the employing trust/HEE Local Office.

^{viii} Details of internationally accredited JRCPTB core medical training programmes can be found on the ST3 Recruitment website: <http://www.st3recruitment.org.uk/recruitment-process/am-i-eligible/core-competences>

^{ix} Applicants who have an ARCP outcome with all competences signed off apart from the full MRCP (UK), will be eligible to apply on this basis, subject to the normal rules on completing the MRCP (UK)

^x The *Alternative Certificate of Core Competence* is a document designed by the JRCPTB listing the necessary core competences required for progression to ST3, as defined in the GIM curriculum: <http://www.jrcptb.org.uk/trainingandcert/ST3-SpR/Pages/General-Internal-Medicine.aspx>. The certificate is available to download from the ST3 Recruitment website: <http://www.st3recruitment.org.uk/recruitment-process/am-i-eligible/core-competences>. Applicants must ensure their form meets the requirements detailed on the website.

^{xi} ACCS Emergency Medicine, Acute Medicine, Anaesthetics, Intensive Care Medicine, and CT3 –Paediatrics/Paediatric EM and CT3 EM

^{xii} Applicants are advised to visit the GMC website which gives details of evidence accepted for registration.

^{xiii} Any time periods specified in this person specification refer to full-time-equivalent.

^{xiv} All experience in posts at any level in this specialty count, irrespective of the country the experience is gained

^{xv} Any time periods specified in this person specification refer to full time equivalent.

^{xvi} For information on how experience in acute care common stem specialties will be counted, please visit the ST3 recruitment website: <http://www.st3recruitment.org.uk/am-i-eligible/experience-career-progression.html>

^{xvii} The five core elements of Emergency Medicine training are Emergency Medicine, Acute Medicine, Anaesthetics, Intensive Care Medicine and Paediatrics/Paediatric Emergency Medicine.

^{xviii} Exceptional circumstances may be defined as a demonstrated change in circumstances, which can be shown on the ability to train at that time and may include severe personal illness or family caring responsibility incompatible with continuing to train. Applicants will only be considered if they provide a 'support for reapplication to a specialty training programme' form signed by both the Training Programme Director / Head of School and the Postgraduate Dean in the HEE Local Office / Deanery that the training took place. No other evidence will be accepted.

^{xix} The '**support for application to another region**' form, signed by the Training Programme Director of their current specialty training programme confirming satisfactory progress must be submitted to the recruitment office at time of application.
