ⁱ 'When is this evaluated' is indicative but may be carried out at any time throughout the selection process.

ⁱⁱ 'Selection centre' refers to a process, not a place. It involves a number of selection activities which may be delivered as part of the assessment process.

ⁱⁱⁱ The GMC introduced the licence to practise in 2009. Any doctor wishing to practise in the UK after this date must be both registered with and hold a licence to practise from the GMC at time of appointment.

^{iv} 'The advertised post start date' refers to the first date from which posts recruited in a round can commence. This will be specified clearly within the published advertisement for that recruitment round.

^v Applicants missing competence other than the MRCP(UK), will be required to note on their application form which competences they have attained subsequent to their core training programme and which are still outstanding. Applicants will be required to load any evidence demonstrating competence attainment to their ePortfolio and all applications will be reviewed by a panel who will confirm whether the application can be considered eligible.

^{vii} Applicants are advised to visit the GMC website which gives details of evidence accepted for registration.
