<p>Commitment to Specialty – Learning & Personal Development</p>		
<ul style="list-style-type: none"> • Realistic insight into specialty • Demonstrates self-awareness and commitment to personal and professional development 	<ul style="list-style-type: none"> • Attendance at training course specific to Ophthalmology 	<p>Interview/selection centre</p> <p>References</p>

PERSON SPECIFICATION 2019

	<ul style="list-style-type: none">• Extracurricular activities / achievements relevant to Ophthalmology• Evidence of understanding of developments in ophthalmic services	
--	--	--

ⁱ 'When is this evaluated' is indicative but may be carried out at any time throughout the selection process.

ⁱⁱ The GMC introduced the licence to practise in 2009. Any doctor wishing to practise in the UK after this date must be both registered with and hold a licence to practise from the GMC at time of appointment.

ⁱⁱⁱ 'Intended start date' refers to the date at which the post commences, not (necessarily) the time an offer is accepted.

^{iv} 'Selection centre' refers to a process, not a place. It involves a number of selection activities which may be delivered within the unit of application.

^v Applicants are advised to visit the GMC website which gives details of evidence accepted for registration.

^{vi} Any time periods specified in this person specification refer to full-time-equivalent.

^{vii} All experience in posts at any level in this specialty count, irrespective of the country the experience is gained

^{viii} The Support for Application to another region form, signed by the Training Programme Director of their current Specialty Training Programme confirming satisfactory progress must be submitted to the recruitment office at time of application.

^{ix} Exceptional circumstances may be defined as a demonstrated change in circumstances, which can be shown on the ability to train at that time and may include severe personal illness or family caring responsibility incompatible with continuing to train. Applicants will only be considered if they provide a 'support for reapplication to a specialty training programme' form signed by both the Training Programme Director / Head of School and the Postgraduate Dean in the LETB / Deanery that the training took place. No other evidence will be accepted.

^x Failure to satisfactorily complete an F2 programme once started should normally be addressed by returning to complete it. Extraordinary circumstances may be defined as a demonstrated change in circumstances which can be shown to impact on the ability to train at that time and may include severe personal illness or family caring responsibility incompatible with continuing to train as a F2 doctor, either through sickness absence, as a LTFT trainee or in a period out of programme.
