PERSON SPECIFICATION 2020

ⁱ 'When is this evaluated' is indicative but may be carried out at any time throughout the selection process.

ⁱⁱ The GMC introduced the licence to practise in 2009. Any doctor wishing to practise in the UK after this date must be both registered with and hold a licence to practise from the GMC at time of appointment.

ⁱⁱⁱ Start date refers to the date at which the post commences, not (necessarily) the time an offer is accepted. For 2020 ST1 posts this will normally be 5 August 2020, unless a different start date is specifically indicated in advance by the employing trust / LETB

^{iv} 'Selection centre' refers to a process, not a place. It involves a number of selection activities which may be delivered within the unit of application.

^v Applicants are advised to visit the GMC website which gives details of evidence accepted for registration.

^{vi} The support for application to another region form, signed by the Training Programme Director for their current Specialty Training Programme confirming satisfactory progress must be submitted to the recruitment office at time of application.

^{vii} Exceptional circumstances may be defined as a demonstrated change in circumstances, which can be shown on the ability to train at that time and may include severe personal illness or family caring responsibility incompatible with continuing to train. Applicants will only be considered if they provide a 'support for reapplication to a specialty training programme' form signed by both the Training Programme Director / Head of School and the Postgraduate Dean in the LETB / Deanery that the training took place. No other evidence will be accepted.

^{viii} An applicant who has previously resigned, been removed from, or relinquished a post on the foundation training programme will not usually be eligible to apply for an ST1/CT1 post except under extraordinary circumstances. Extraordinary circumstances may be defined as a demonstrated change in circumstances which can be shown to impact on the ability to train at that time and may include severe personal illness or family caring responsibility incompatible with continuing to train as a foundation doctor, either through sickness absence, as a LTFT trainee or in a period out of programme.

Where an applicant wishes to apply for an ST1/CT1 post in the above circumstances they must provide evidence to support this application in the form of a letter written and signed by the Director of the Foundation School where previous training took place. This letter must include the following information:

- The dates of your previous training;
- Confirmation of the reasons why the applicant previously resigned, was removed from or relinquished their post in the training programme
- Confirmation that the applicant has met the requirements/demonstrated the competencies of foundation training
- Confirmation that the applicant has completed a period of remediation (if applicable)
