<ul style="list-style-type: none"> Demonstrates interest and realistic insight into psychiatry and mental health Shows initiative/drive/enthusiasm (self-starter, motivated, shows curiosity, initiative) for the speciality Interest in working closely with people and helping others Commitment to lifelong learning Commitment to personal and professional development Self-awareness and ability to be self-critical and self-reflective Evidence of proactively seeking additional experiences, opportunities and feedback 	<ul style="list-style-type: none"> Extracurricular activities / achievements/ interest that provide increased insight into psychiatry Evidence of attendance at organised teaching and training programmes Evidence of self-reflective practice 	<p>Application form</p> <p>Interview/selection centre</p> <p>References</p>

PERSON SPECIFICATION 2019

<ul style="list-style-type: none">Awareness of how academic research impacts own practice and vice versa		
--	--	--

ⁱ 'When is this evaluated' is indicative but may be carried out at any time throughout the selection process.

ⁱⁱ The GMC introduced the licence to practise in 2009. Any doctor wishing to practise in the UK after this date must be both registered with and hold a licence to practise from the GMC at time of appointment.

ⁱⁱⁱ 'Intended start date' refers to the date at which the post commences, not (necessarily) the time an offer is accepted. For 2019 CT1 posts this will normally be 1 August 2019, unless a different start date is specifically indicated in advance by the employing trust/LETB.

^{iv} Any time periods specified in this person specification refer to full time equivalent.

^v 'Selection centre' refers to a process, not a place. It involves a number of selection activities which may be delivered within the unit of application.

^{vi} Applicants are advised to visit the GMC website which gives details of evidence accepted for registration.

^{vii} The 'support for application to another region' form, signed by the Training Programme Director of their current specialty training programme confirming satisfactory progress must be submitted to the recruitment office at time of application.

^{viii} Exceptional circumstances may be defined as a demonstrated change in circumstances, which can be shown on the ability to train at that time and may include severe personal illness or family caring responsibility incompatible with continuing to train. Applicants will only be considered if they provide a 'support for reapplication to a specialty training programme' form signed by both the Training Programme Director / Head of School and the Postgraduate Dean in the LETB / Deanery that the training took place. No other evidence will be accepted.

^{ix} Failure to satisfactorily complete an F2 programme once started should normally be addressed by returning to complete it. Extraordinary circumstances may be defined as a demonstrated change in circumstances which can be shown to impact on the ability to train at that time and may include severe personal illness or family caring responsibility incompatible with continuing to train as a F2 doctor, either through sickness absence, as a LTFT trainee or in a period out of programme.

^x Non-training non-EU posts, or UK/EU posts such as e.g. staff grade, associate specialist, locum consultant, specialty doctor, locum appointment for service (LAS), Trust SHO, not prospectively approved by the competent authority (STA/PMETB/GMC in UK), do not count towards the award of the Certificate of Completion of Training (CCT). Doctors who have spent time in such posts will be eligible for appointment to the specialty training programme leading to the award of the Certificate of Eligibility for Specialist Registration via a combined programme of non-training and training posts (CESR CP).

*Any time periods specified in this person specification refer to full time equivalent
