<ul style="list-style-type: none"> Demonstrates interest and realistic insight into psychiatry and mental health Shows initiative/drive/enthusiasm (self-starter, motivated, shows curiosity, initiative) for the specialty Interest in working closely with people and helping others Commitment to lifelong learning Commitment to personal and professional development Self-awareness and ability to be self-critical and self-reflective Evidence of proactively seeking additional experiences, opportunities and feedback Awareness of how academic research impacts own practice and vice versa Evidence of attendance at organised teaching and training programme(s) Evidence of self-reflective practice 	<ul style="list-style-type: none"> Extracurricular activities / achievements/ interest and realistic insight relevant to psychiatry 	<p>Application form Interview/selection centre References</p>

PERSON SPECIFICATION 2021

ⁱ 'When is this evaluated' is indicative but may be carried out at any time throughout the selection process.

ⁱⁱ The GMC introduced the licence to practise in 2009. Any doctor wishing to practise in the UK after this date must be both registered with and hold a licence to practise from the GMC at time of appointment.

ⁱⁱⁱ 'Intended start date' refers to the date at which the post commences, not (necessarily) the time an offer is accepted.

^{iv} Certificate C, the equivalent core competence form, is a document designed by the Royal College of Psychiatrists, which lists the necessary core competences required for progression to ST4, as defined in the CT curriculum: accessible via <https://www.rcpsych.ac.uk/training/curricula-and-guidance/gmc-approved-curriculum-modules>. Certificate C can be downloaded from the National Psychiatry Recruitment section of Health Education North West - North Western's website at: https://www.nwpgmd.nhs.uk/st4_psy_train_rec_oview

^v 'Selection centre' refers to a process, not a place. It involves a number of selection activities which may be delivered within the unit of application.

^{vi} Applicants are advised to visit the GMC website which gives details of evidence accepted for registration.

^{vii} Any time periods specified in this person specification refer to whole time equivalent.

^{viii} The '**support for application to another region**' form, signed by the Training Programme Director of their current specialty training programme confirming satisfactory progress must be submitted to the recruitment office at time of application.

^{ix} Exceptional circumstances may be defined as a demonstrated change in circumstances, which can be shown on the ability to train at that time and may include severe personal illness or family caring responsibility incompatible with continuing to train. Applicants will only be considered if they provide a 'support for reapplication to a specialty training programme' form signed by both the Training Programme Director / Head of School and the Postgraduate Dean in the LETB / Deanery that the training took place. No other evidence will be accepted.
